Introduction:
I am a UI developer at STACC (Software Technology and Applications Competence Centre). I graduated software developer specialty in 2018. My aim is to widen my expertise and gain experience as a programmer. I have mainly experience in front-end development, but I am friends with Python (from Django models to data analysis).

Education:
2016-2018: vocational education: Tartu Vocational Education Centre, junior software developer (web specialist)
2012-2016: higher education: University of Tartu, biology (bachelor's degree)
2008-2011: secondary education: Tartu Descartes Lyceum
1999-2008: basic education: Luunja Secondary School
